PROFESSIONAL SUMMARY

Python Developer and 2025 B.Tech graduate with project experience in backend API development, data processing and NLP. Built a FastAPI backend that validates workflow pipelines and exposes metrics through REST APIs, and a cyberbullying detection system using scikit-learn and NLTK. Comfortable with pandas, NumPy, SQL and object-oriented Python; internship experience cleaning and analysing datasets at Rooman Technologies. Seeking an entry-level Python Developer role.

TECHNICAL SKILLS

Python: Core Python, OOP, data structures, functions, modules, decorators, generators, exception handling, file handling, virtual environments

Web Frameworks: FastAPI, Flask (fundamentals), Django and Django REST Framework (fundamentals), Pydantic, Uvicorn

APIs: REST API design, JSON, request and response validation, API integration, Postman, Swagger/OpenAPI docs

Data Libraries: pandas, NumPy, Matplotlib, Seaborn, scikit-learn, NLTK, OpenCV, Jupyter Notebook

Databases: MySQL, PostgreSQL (basics), SQLite, SQL joins and CRUD, SQLAlchemy ORM (basics)

Testing and Tools: pytest and unittest (fundamentals), debugging, Git, GitHub, VS Code, PyCharm, Docker (basics)

Web and Other: JavaScript, React.js, HTML5, CSS3, Java (fundamentals), Power BI, Agile

Core CS: Data Structures and Algorithms, Problem Solving, OOP

PROJECTS

Visual AI Pipeline Builder | Python, FastAPI, React, React Flow, Zustand

- Developed FastAPI endpoints that validate pipeline structures as Directed Acyclic Graphs (DAG) and return node and edge metrics as JSON.
- Connected the Python backend to a drag-and-drop React interface used to design and link AI workflow nodes.

Cyberbullying Detection System | Python, NLP, scikit-learn, NLTK, TF-IDF, pandas

- Built a Python NLP pipeline that classifies social-media text for cyberbullying content.
- Performed text preprocessing and TF-IDF feature extraction; evaluated models using precision, recall and F1-score.

AI Face Recognition Attendance System | Python, OpenCV

- Developed a face detection and recognition project that records attendance with timestamps.

Job Portal Application | React, Spring Boot, MySQL, REST APIs

- Built a full-stack job portal with registration, login, job listings and application tracking backed by REST APIs and MySQL.

INTERNSHIPS AND TRAINING

AI Data Quality Analyst Intern | Rooman Technologies | Feb 2025 – May 2025

- Cleaned and transformed raw datasets using Python (pandas) and SQL; built Power BI dashboards for business teams.
- Optimized SQL queries, cutting data retrieval time by 35%.

Infosys Springboard Internship 5.0 | Infosys | Oct 2024 – Dec 2024

- Built a Cyberbullying Detection System in Python; improved classification accuracy through preprocessing and model tuning.

Java Full Stack Master Program | Besant Technologies | Aug 2025 – Jan 2026

- Trained in Java, Spring Boot, React, MySQL and REST API development.

EDUCATION

B.Tech, Electronics and Communication Engineering | 80% | Anantha Lakshmi Institute of Technology and Sciences, Anantapuram | Dec 2021 – May 2025

Intermediate | 80% | Narayana Junior College, Anantapur | Jun 2019 – May 2021

SSC | 93% | SRK Vidyalayam High School, Anantapur | Apr 2019

CERTIFICATIONS AND ACHIEVEMENTS

- IBM Front-End Professional Certificate (IBM); Generative AI for Software Developers Specialization (IBM)
- Generative AI for Data Analysts Specialization (IBM); Prompt Engineering Specialization (Vanderbilt University)
- 3-Star Badge on HackerRank; Best Student of the Year Award, Chinmaya Mission
