PROFESSIONAL SUMMARY

Detail-oriented QA Engineer and 2025 B.Tech graduate with a software development background in Java, Python, JavaScript and SQL. Understands how applications are built, which helps in writing clear test scenarios and test cases, reproducing defects and validating REST APIs and database records. Hands-on with Postman, SQL data validation and browser DevTools; building skills in Selenium WebDriver and TestNG automation. Internship experience in data quality at Rooman Technologies and with Infosys Springboard.

TECHNICAL SKILLS

Manual Testing: Functional, Regression, Smoke, Sanity, Integration, System, UAT, Exploratory, Compatibility and Cross-Browser Testing

Test Design: Test Scenarios, Test Cases, Test Plan, Requirement Traceability Matrix (RTM), Boundary Value Analysis, Equivalence Partitioning

Defect Management: Defect Life Cycle, Severity and Priority, Reproduction Steps, Expected vs Actual Results, Retesting, Jira (basics)

Automation Testing: Selenium WebDriver (fundamentals), Java, Python, TestNG, JUnit, Page Object Model (POM), Maven, Cucumber BDD (basics)

API Testing: Postman, REST APIs, JSON, HTTP methods and status codes, request and response validation, Rest Assured (basics)

Database Testing: SQL (joins, subqueries, aggregate functions), MySQL, SQL Server, PostgreSQL (basics), data validation, CRUD verification

Process and Tools: SDLC, STLC, Agile/Scrum, Git, GitHub, Browser DevTools, application logs, CI/CD and Jenkins (fundamentals)

Programming: Core Java, Python scripting, JavaScript, OOP, Data Structures and Algorithms

PROJECTS

Job Portal Application (Full Stack) | React, Spring Boot, MySQL, Postman

- Built a job portal with registration, login, job posting and application tracking, and verified each user flow end to end.
- Tested REST endpoints in Postman during development, checking status codes, JSON responses and authentication behaviour.
- Validated CRUD operations against MySQL records with SQL queries to confirm data was stored and updated correctly.

Visual AI Pipeline Builder | React, React Flow, FastAPI, Python

- Developed a drag-and-drop pipeline builder with a FastAPI backend that validates workflows as Directed Acyclic Graphs (DAG).
- Checked valid and invalid pipeline structures (cycles, disconnected nodes) and debugged issues using browser DevTools and API logs.

Aroma Hotel Website | HTML5, CSS3, JavaScript

- Built a responsive hospitality website and checked layout and interactions across screen sizes and browsers.

INTERNSHIPS AND TRAINING

AI Data Quality Analyst Intern | Rooman Technologies | Feb 2025 – May 2025

- Checked, cleaned and transformed raw datasets using Python and SQL, resolving data quality issues before reporting.
- Built Power BI dashboards for business teams and optimized SQL queries, cutting data retrieval time by 35%.

Infosys Springboard Internship 5.0 | Infosys | Oct 2024 – Dec 2024

- Built a Cyberbullying Detection System using Python and NLP; improved classification accuracy through preprocessing and model tuning.

Java Full Stack Master Program | Besant Technologies | Aug 2025 – Jan 2026

- Trained in Java, Spring Boot, React and MySQL; built and debugged RESTful web applications.

EDUCATION

B.Tech, Electronics and Communication Engineering | 80% | Anantha Lakshmi Institute of Technology and Sciences, Anantapuram | Dec 2021 – May 2025

Intermediate | 80% | Narayana Junior College, Anantapur | Jun 2019 – May 2021

SSC | 93% | SRK Vidyalayam High School, Anantapur | Apr 2019

CERTIFICATIONS AND ACHIEVEMENTS

- IBM Front-End Professional Certificate (IBM); Generative AI for Software Developers Specialization (IBM)
- Generative AI for Data Analysts Specialization (IBM); Prompt Engineering Specialization (Vanderbilt University)
- 3-Star Badge on HackerRank; Best Student of the Year Award, Chinmaya Mission
